

Sprint Planning/Progress Update

- We have completed the tasks for Sprint 6 (Project = 85-90%) which are.

- Charts final for Business Intelligence
- To do list page
- Add better design
- Testing / Bug Triage
- Code Optimization

These are the tasks that are carried over to Sprint 7 as they are still not done.

- Final Touch of Design
- Add picture using binary
- Forget Password

These are the tasks and assignments for our next Sprint.

- Final layout
- Finish Profile
- Adding user-oriented design/suggestions
- Landing Page Changes

Sprint Retrospective

What went well – Our progress slowed down but it's because we also are almost done with our website, almost all of our pages are done, and we are almost finished with the website.

What could be improved – Some of the pages could use finishing touch and more functionality, Landing page could be more extravagant, so it attracts users.

What needs to be done – Some of the functionality, like reset password, image entry, and undone design for the page.
